Introduction

Navitas University Partnerships Europe (UPE) is committed to providing a high-quality service to its students and to regularly monitoring the effectiveness of its services. As a result, Navitas UPE Colleges* are required to undertake a yearly formal review.

To complete the yearly review, **one** Annual Monitoring Form should be completed by every College. This **one** document should provide an overview/review of **all** programmes and its associated modules the College delivers and, if applicable, mapped to the Office for Students (OfS) B conditions or the Quality Assurance Agency (QAA) Quality Code 2024..

The information required includes:

- Analysis of Student Data and Outcomes
- Analysis of Student Satisfaction and Module Evaluation
- Analysis of Learning, Teaching and Assessment Strategies
- Completion of SWOT Analysis for the Academic Year
- Summary of the College Performance over the Academic Year

Unless the College has agreed through the AAC and JSPMB to adopt the Annual Monitoring procedure as outlined by the University Partner (UP) and is subject to the UP process including the required information stated above; the completion of this **one** form indicates that Annual Monitoring has been carried out. The completed form and any associated-UP documentation should be submitted to Navitas UPE Academic Registry by the **last Friday of December** each year for ratification and sign off by the Head of Education.

Once submitted, the Navitas UPE Academic Registry will complete a thorough analysis of the Annual Monitoring activity and provide findings and recommendations.

The Annual Monitoring activity should be completed by a nominee in each College who may designate individual tasks to the relevant team for feedback and completion.

Please interpret 'College' as 'Campus' where applicable
